Engineered to target yellow fever mosquito  
(The primary vector for Zika and Dengue virus)

# Prevent yellow fever mosquito!

## Excellent high-efficiency Mosquito Traps

**Mozzie Defender**

Mozzie Defender specifically designed to tackle the notorious Yellow fever mosquito. Powered by a combination of UV light, Human sweat scent and CO<sub>2</sub>, our traps lure the Yellow fever mosquitoes, ensuring their capture and elimination.

### 👍 Mozzie Defender Advantages

✔ **Visual and Olfactory cue works 24/7**

Use CO<sub>2</sub> (human breath)& human scent to mimic human for an all day attracting. Night time will have UV wave and make mosquito fly to trap.

✔ **Patent-design**

Employing natural scent pouches as the medium, akin to human odour to attract mosquitoes. Heavy duty stainless steel machine body built to lasting.

✔ **Special outlook design**

The stark contrast of black color attracts mosquitoes with poor vision. Lower machine height facilitates easier entry for mosquitoes. Air ventilation design enhances the coverage area for human odour.

✔ **Safety measure**

No explosive LPG required nor compression CO<sub>2</sub> cylinder.

**Free-Trial for  
Mozzie Defender**
