Engineered to target yellow fever mosquito
(The primary vector for Zika and Dengue virus)

Prevent yellow fever mosquito!

Excellent high-efficiency Mosquito Traps

Mozzie Defender

Mozzie Defender specifically designed to tackle the notorious Yellow fever mosquito. Powered by a combination of UV light, Human sweat scent and CO₂, our traps lure the Yellow fever mosquitoes, ensuring their capture and elimination.

👍 Mozzie Defender Advantages

✔️ **Visual and Olfactory cue works 24/7**

Use CO₂ (human breath)& human scent to mimic human for an all day attracting. Night time will have UV wave and make mosquito fly to trap.

✔️ **Patent-design**

Employing natural scent pouches as the medium, akin to human odour to attract mosquitoes. Heavy duty stainless steel machine body built to lasting.

✔️ **Special outlook design**

The stark contrast of black color attracts mosquitoes with poor vision. Lower machine height facilitates easier entry for mosquitoes. Air ventilation design enhances the coverage area for human odour.

✔️ **Safety measure**

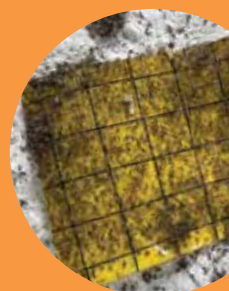

No explosive LPG required nor compression CO₂ cylinder.

**Free-Trial for
Mozzie Defender**
